In the heat of summer, the air conditioning of a car is the only reprieve some folks (those of us without central air, or indoor jobs) have from the sweltering heat.

The cars on display at Skyliner Lounge Cruise Nights may or may not have air conditioning, but one thing is certain — these cars are hot.

With several events each summer, Cruise Nites offers a sanctioned place to go and check out hot rods and cars.

*Skyliner Lounge Cruise Nites has one more event this season, at 6 p.m. on Sept. 9. Call 360-0008 for details.*
