

There's A Difference Between Building A House And Building A Home.

It's a difference that shows in every detail. None of which are overlooked by R. Widing Construction Inc. They've been building homes for three decades. From the initial design and planning to choosing the best materials to the nitty-gritty of construction, they treat every home they build as if it were their very own. Which is why they trust us to provide them with the

finest materials available. At Brown Lumber, we know how important every nail is. That's why we carry the names you trust. Like long-lasting ThermaTru Doors®, the door system you can believe in. Because, like R. Widing Construction, we understand you're building more than a house. You're building a dream. Let us help you make it a reality, call 231-947-1400.

We Sell The Stuff Dreams Are Made Of.
