

# 569 Peninsula Trail Traverse City, MI

## Parade Home 8

3600 square foot  
5 Bedrooms  
3 Baths

On a challenging waterfront site on Spider Lake, Tompke Construction has built the perfect family retreat. The design by Robert A. Yvon, architect, combines indoor and outdoor living spaces, providing room for family and guests, lots of natural light, and view from virtually every room. The living room's fireplace and raised ceiling add a cottage touch, and the master suite offers privacy with its own lakeside views and access. The selection of nature inspired interior finishes reflects the setting, and the low-maintenance exterior means more time for fun at the lake.
