

## Maximum Comfort and Maximum Efficiency.

*Heating systems have changed dramatically over the last ten years. Today there are several options that provide more comfort, cut energy costs and reduce fossil fuel emissions.*

At **GeoFurnace** we believe in providing our customer with all the newest energy saving possibilities, from super-quiet 90% efficient gas furnaces to hi-tech heat pumps.

**For GeoFurnace customers we:**

- Measure your home and provide an accurate energy usage analysis
- Determine the exact size of the system the home needs for maximum efficiency and maximum comfort

- Explore all the energy-efficient product options in the marketplace today
- Explain the new cost-reducing purchasing options from the utilities
- Provide financing for the new equipment
- Guarantee repair service 24 hours a day, seven days a week

There are many new products and options to consider today. Make sure you explore them all.
