

What's coming

◀Continued from Page 9

three rows of seats for six passengers. It's offered in both two- and all-wheel drive. Power comes from a 250-horsepower, 3.5-liter V-6.

The Crossfire is a head turner — a low, sporty coupe with a stance that makes it look ready to leap forward at any moment. It's a rear-drive model powered by a 215-horsepower, 3.2-liter V-6.

The Crossfire is being built in Germany in conjunction

with Karmann, a longtime DaimlerChrysler partner.

The Chrysler Sebring Convertible and Sebring sedan are freshened as early 2004 models, with new fascia, grille and wheels. The ragtop and four-door hardtop also have an enhanced BeltAlert system that reminds the driver to use the seat belt, and audio controls on the steering wheel are available.

Chrysler's PT Cruiser now has a chrome package as well as a Getrag manual transaxle offering.

Dodge
The 2003 Dodge SRT-4 is heading to showrooms, touted as the quickest production car priced under \$20,000.

Using a Dodge Neon sedan body, the SRT-4 has a 215-horsepower, 2.4-liter, turbocharged four-cylinder under the hood and can go from zero to 60 mph in 5.9 seconds, according to Dodge.

The SRT-4 rides on a performance-tuned suspension, and the body appearance is updated with side sills, new front fascia and rear spoilers.

The 2004 Dodge Stratus sedan debuts with a freshened appearance and new BeltAlert system that reminds the driver to use the seat belt.

Ford

It was 1969 when the first Mustang Mach I debuted.

This year, the nameplate returns with a 305-horsepower, 4.6-liter V-8 and ram air shaker hood scoop on a special Mustang model. Only 6,500 will be produced.

Marking 100 years in business this year, Ford also has

a Heritage Edition F-150 pickup in dealerships. It features a two-toned paint scheme, special badging that commemorates 100 years of trucks at Ford, chrome tubular running boards and 17-inch wheels.

A number of other Fords — Super Duty Lariat Crew Cab, Explorer Limited, Taurus, Focus ZTS and Mustang GT — are offered with Centennial Edition trim.

The 2003 Ford Explorer Sport Trac Adrenalin Edition bows this spring with a Pioneer audio system with 485 watts of peak audio power and five-spoke, aluminum wheels and special badging.

GMC

GMC's innovative SUV/pickup truck combo model, the 2004 Envoy XUV, goes into production in August and will be in showrooms in fall.

Honda

Honda's novel-looking Element SUV officially went on sale in late December and is the newest model on the showroom floor.

But early this year, Honda dealers added a Honda Accord Coupe Factory Performance package that changes the personality and look of Honda's top coupe with V-6.

The Accord FP package includes high performance suspension components, 17-inch wheels and tires, a full body kit and FP trim.

Hummer

Having just launched the small Hummer H2 last year, Hummer dealers are trying to keep up with demand.

Hyundai

Hyundai launches its 2004 XG350 in late spring.

The 2004 sedan has a freshened front and rear. Power continues to come from a 194-horsepower, 3.5-liter V-6.

Later this year, this 3.5-liter engine becomes a third offering on Hyundai's Santa Fe SUV. The 138-horsepower, 2.4-liter four-cylinder and 173-horsepower, 2.7-liter V-6 are the other choices.

Another change on the Santa Fe is an all-wheel-drive system.
