

# Go green — all year long

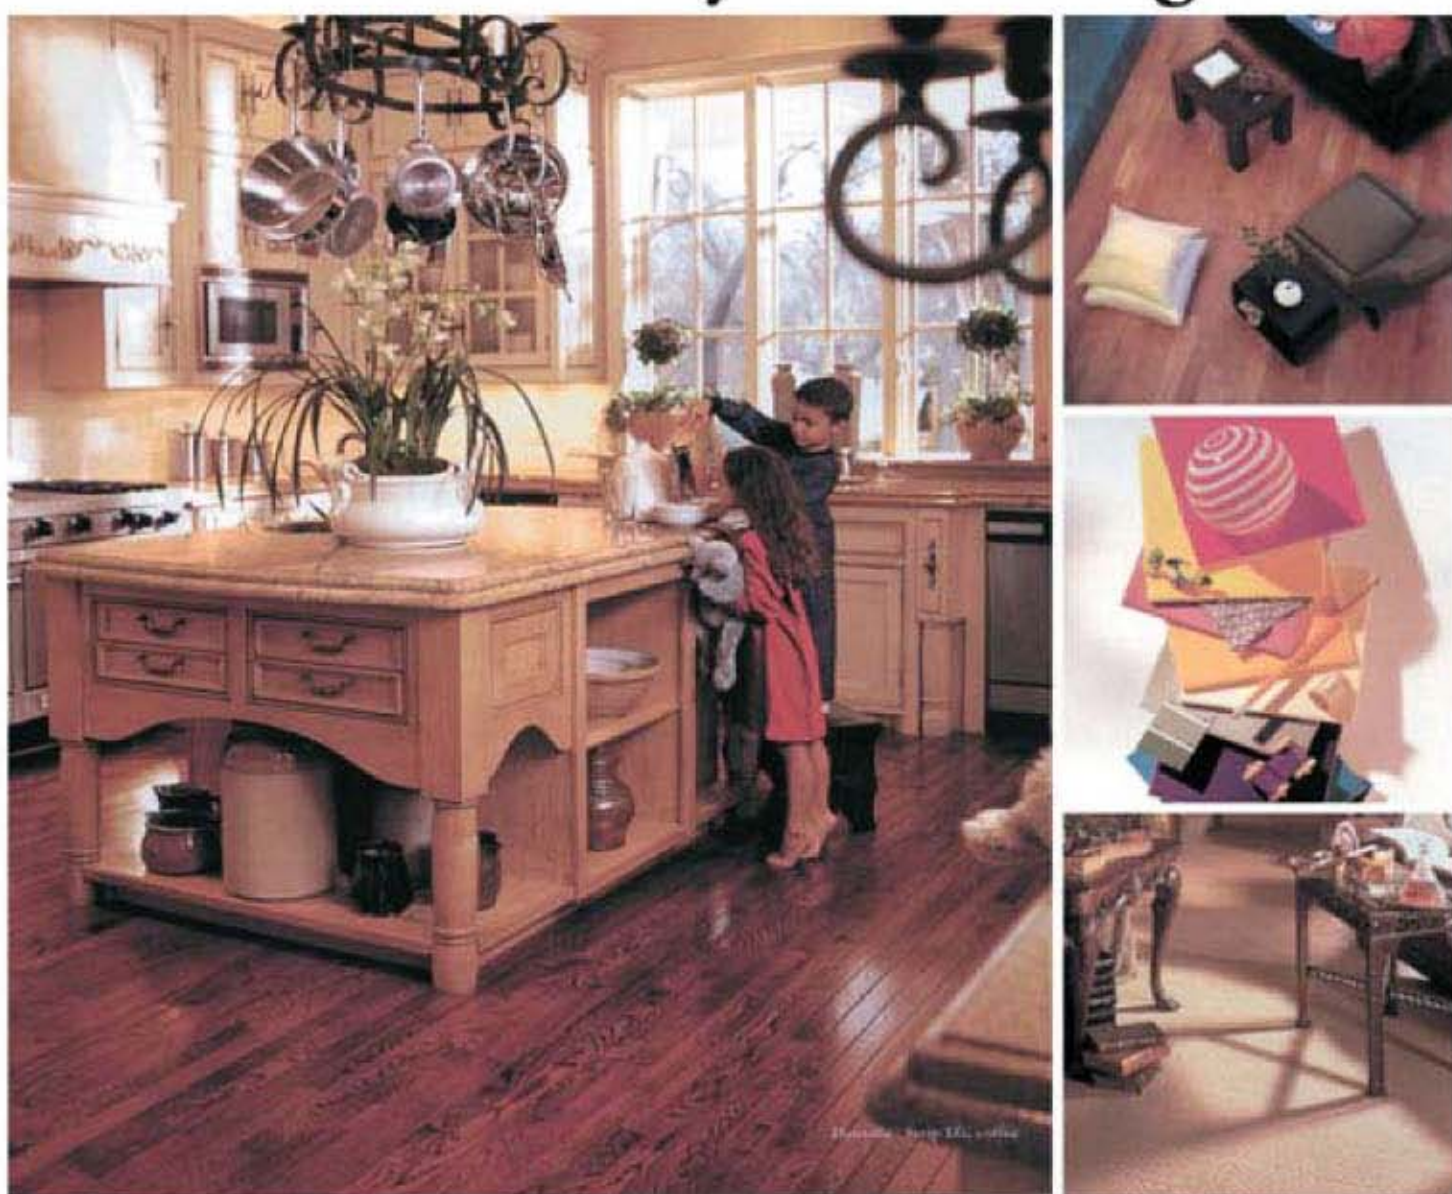

Record-Eagle/John L. Russell  
Above and below are two examples of hydroponic growing from Traverse City's Organic Plant-It: Czechoslovakian chili peppers thrive under grow lights that move along on a six-foot track, which can also pause. Below, the power grower is programed to automatically water these strawberry plants from the tube on the side. Below, the Turbogarden growing starter kit which includes fertilizer, mulch, a timer and more.
