

Concrete insulation new for building

have adopted building codes mandating minimum R-value standards for foundation walls which is compatible with the E-MAXX insulated system.

For more information, visit the E-MAXX Website at www.emaxxsystems.com

Bob Chiodini is a local freelance writer.

Clockwise from top: A diagram shows how the E-MAXX insulation form is constructed; a construction worker installs the form; a side view of an E-MAXX panel; the final results of the system which provides continuous insulation on one or both sides of a poured foundation.
