Development

## EXPO

### FROM PAGE 5

The Association has thoughtfully designated a room for small parents to retreat to with their children when needing a break.

"The School's food service operation will offer a full lunch menu in the cafeteria," Lape said.

The Expo is designed to accommodate wheelchairs and strollers with it's barrier-free set up.

Shuttle buses will be available to taxi visitors to and from their vehicles. Expo parking is available at the Junior High and at Cherry Knoll Elementary.

Lape said that as in years past, the Boy Scouts will be available to assist patrons with parking issues and directions. The Northwest Michigan Blood Mobile will be on site Sat., Feb. 19 for those who wish to donate blood during the Expo.

The HBAGTA is a trade association comprised of professionals from the five area counties.

"Our goal is to further educate our members, keep them up on latest code changes, building techniques and monitor legislation," said Lape of the non-profit organization.

Those attending the Expo will receive a 64-page directory containing information on HBAGTA builder member services. Patrons will be given a card at the entrance of the show. Each time he or she enters one of the five exhibit halls, a colored star is stamped on the card. Once all five stars are earned, the patron's card is entered into a drawing. The winner will receive a gift certificate of \$250 to spend at a vendor's booth at the show.

"Even if you just want to come and look around, this is a great opportunity for you to learn what is available to make your home even more comfortable," Lape said.

The 21st Annual Home Builders EXPO will be held at Traverse City East Junior High Saturday, February 19 and Sunday, February 20.

## Residential Construction Solutions, Inc.

Provides Homeowners & Building Professionals  
Solutions to their Building Needs.

Detailed Project Estimates  
Computerized Construction Documents:  
Construction Drawings using 3-D  
CAD Software
