Escape

How about an Escape right within your home? Literally. Some timeless music, a glass of wine and a fire in a traditional, masonry-style fireplace may be just the ticket. Gaze through the Escape's hypnotic flames to a unique, dry-stacked brick with cantilevered corners and embedded accent lighting and you'll be transported to another time, another place, without taking a step outside your home.

7100

When it comes to creating a full sensory experience, nothing compares with the sounds, the smells and the ambiance created by a ranging, wood burning fireplace. Undeniably, the 7100 proves *Nothing Burns Like a Quad.*

GAS

6000

Direct venting eliminates the need for a conventional chimney, because fireplaces vent to the outdoors out the back or top, so you can build in your fireplace almost anywhere - an inside wall, an island or peninsula.

Exclaim 50

The view doesn't get any bigger or more spectacular. The Exclaim-50 offers a vision of epic proportions, something any lodge would be envious of. With a choice of traditional or herringbone brick interior and an elegant array of door options.

The Passage

The Passage is a ceramic fiber direct vent see-thru fireplace that features an eye-catching masonry style arch on each side. It is clean faced and allows finishing products to be brought right up to the opening.
