ENGINEERS • SCIENTISTS • FIELD SERVICES

GRT Inc.

ENVIRONMENTAL ENGINEERING

Site Remediation

- Soil and groundwater cleanup
- Remedial technologies - Monitored Natural Attenuation
- System design, construction and startup
- Feasibility studies and cost estimates
- Operation and maintenance

Hydro-geological Investigations

- Site investigations
- Mapping and monitoring
- Groundwater-capacity modeling
- Aquifer testing and groundwater
- Ground water supply evaluation

Environmental Compliance

- Qualified Environmental Storage Tank Cleanups
- PCB Assessments
- Lead and asbestos testing
- Remediation and regulatory compliance
- Air permitting and emissions reporting
- Pollution incident prevention plans
- Wetlands protection preventive plans
- Spill prevention, control and containment plans

Environmental Data Management

- Phase I and II Environmental Site Assessments
- Wetland Assessments

WASTEWATER ENGINEERING

- Community sewer systems
- Advanced treatment systems
- Conventional sewage systems
- Industrial treatment systems
- Sludge handling
- Municipal private collection systems
- TSS reduction and flocculation
- Automation and process control
- Odor control systems

Field Services

- Operation, maintenance, repair
- Construction inspection monitoring
- System start-up
- Operator training
- Operation and maintenance
- Supply system contracting
- Mapping and flow monitoring

WATER AND FINANCIAL ASSISTANCE

- Project feasibility studies (bank, grant, etc)
- State and federal programs
- Capital improvement plans
- Cost estimates

CIVIL ENGINEERING

Local Use and Facility Studies

- Site development design reviews
- Storm water management
- Flood risk profiles
- Construction and site plan
- Commercial, PUD site development
- Residential parks and business centers
- Recreational planning and park design
- Drainage, stormwater, parking, etc. urban and design

Water Supply

- Municipal water supply, storage, treatment and distribution systems
- Water reliability studies
- WWS design and permitting
- Advanced water treatment design
- Wetland protection programs

Stormwater and Wetlands

- Wetland mapping and delineation
- Stormwater management design
- Retention and detention basin design
- Soil erosion and sedimentation control
- Wetland studies

Dams and Hydraulics

- Flood hazard mapping
- Floodplain determination
- Capacity design design
- Dam design and repair
- Technical control structures
- Bridge and overpasses
- Culvert design
- Wetland mapping
