Ashtabula County At A Glance.

Ashtabula County has been blessed with a strong and growing manufacturing economy, which produces polymers, plastics, paper, chemicals, home building products, packaging, mattresses, playground equipment, shopping carts, truck and auto parts, and some of America's best wine.

Due to the County's Lake Erie location, the tourism and travel industry continues to grow as visitors swim, boat, hike, shop, visit museums and tour our 18 covered bridges.

Agriculture remains an important segment of the economy with dairy farms, soybeans, corn and vegetables abundantly grown each season.

Location is one of the County's most valuable resources as we are 500 miles from 65% of the North American marketplace.

Healthcare is one of the County's single greatest assets, as the Ashtabula County Medical Center is affiliated with the Cleveland Clinic Health Systems and the hospitals in Geneva and Conneaut are part of the University Hospitals Health System, all part of the best health care systems in the United States.

Education continues to be a priority in Ashtabula County. Kent State University, Ashtabula Campus provides its 2500 students with a number of associate and bachelor degree programs.
